Funding and unvaccinated member lists available to providers

Apply to HPSM's COVID-19 Vaccine Incentive Program today!

COVID-19 vaccination rates are high in San Mateo County, but the Health Plan of San Mateo (HPSM) member vaccination rates are 25% lower than the general population. To support our providers in leading the fight against COVID-19 and closing this gap, HPSM is offering two funding opportunities to contracted PCPs through our new COVID-19 Vaccine Incentive Program:

1. Upfront funding to support your practice serving as a vaccinator. Registered PCPs will receive **\$10 per unvaccinated assigned member** as of the date that your Vaccination Plan of Action is approved by HPSM.

Outcomes funding for each assigned HPSM member who receives their first dose on or after the date your Plan of Action is approved by HPSM. This second type of funding is available whether the member received the vaccine at your clinic or elsewhere. PCPs with an approved Plan of Action will receive **\$60 per unvaccinated assigned member** who receives their first dose during the Plan of Action period.

Both types of funding will only be available while this program is active. Currently the program is slated to end on February 28, 2022. We will notify you if it is extended.

To receive either type of funding, you must submit a Plan of Action briefly describing how you will use the funding to outreach to members, facilitate vaccine administration at your clinic(s), and build vaccine confidence. You can complete the form online here: <https://tinyurl.com/CovaxIncentive>

Additionally, in order to receive the upfront funding, your practice must be registered as a vaccinator and must provide a current Vaccinator ID.

We will accept Plans of Action via the link above until January 1, 2022. Please allow 10 business

days for your plan to be approved by HPSM, and respond promptly to inquiries from HPSM staff in follow up to your plan.

HPSM is excited to be able to financially support your practice in this critical work. In addition to this funding, here are some resources you can use today:

- Identify your members needing a vaccination: All PCPs can access a list of their unvaccinated members today, via our eReports portal. Look for the report titled, “COVID-19 Unvaccinated Member Detail”. eReports portal: reports.hpsm.org/skins/Hillary/
- Become a vaccinator and download vaccine confidence materials www.hpsm.org/provider-covid-resources/vaccine-resources
- Help members find a vaccine appointment: www.hpsm.org/covid-19/vaccination

Thank you for all you are doing to close the gap in COVID-19 vaccination rates in San Mateo County!

Colleen Murphey
