## New Resources: Screening for Adverse Childhood Experiences (ACEs)

Dear primary care providers,

**First 5 San Mateo County** has released new resources designed to support you in administering screenings for Adverse Childhood Experiences (ACEs):

- A brief video containing testimonials from San Mateo County PCPs on the critical role of providers in mitigating toxic stress through ACEs screenings: [first5sanmateo.org/adverse-childhood-experiences/](http://first5sanmateo.org/adverse-childhood-experiences/)
- Short vignettes to promote patient awareness of ACEs screenings: [first5sanmateo.org/parents-ask-your-doctors-for-aces-screenings/](http://first5sanmateo.org/parents-ask-your-doctors-for-aces-screenings/)

Medi-Cal-contracted primary care physicians who attest to completing a free online training become eligible to receive \$35.67 per patient screened for ACEs through Proposition 56 directed payments.

Contact [PSInquiries@hpsm.org](mailto:PSInquiries@hpsm.org) or visit [acesaware.org](http://acesaware.org) for more information.

Thank you,

The Health Plan of San Mateo
